

How do I continue to get access to the Premium service?

If you have been given complimentary access, in the top right hand corner of the page, you will see that you are logged in as a Premium User

You will be able to see when this expires by either looking at Your Profile page or My review page.

If you want to continue being able to use all the features the of the Benchmark Centre after the complimentary access lapses, all you have to do is click the green Renew now button.
